IMMUNOLOGY *and* CELL BIOLOGY

Official Journal of the Australasian Society for Immunology

EDITOR-IN-CHIEF

Chris R Parish
Division of Immunology and Genetics,
The John Curtin School of Medical Research,
Australian National University,
PO Box 334, Canberra, ACT 2601, Australia

EDITORS

Geoffrey R Shellam
Department of Microbiology,
University of Western Australia,
Nedlands, WA 6009, Australia

P Mark Hogarth
The Austin Research Institute,
Kronheimer Building, Austin
Hospital, Heidelberg, Vic. 3084,
Australia

Jacques FAP Miller
The Walter and Eliza Hall Institute,
Royal Melbourne Hospital,
Vic. 3050, Australia

Robert H Loblay
Clinical Immunology Research
Centre, University of Sydney,
Sydney, NSW 2006, Australia

INTERNATIONAL EDITORIAL BOARD

CCA Bernard *Melbourne, Australia*
RV Blanden *Canberra, Australia*
TJ Braciale *Charlottesville, USA*
P Bretscher *Saskatchewan, Canada*
W Britton *Sydney, Australia*
GF Burns *Newcastle, Australia*
C Cheers *Melbourne, Australia*
MD Cooper *Birmingham, USA*
CL Geczy *Sydney, Australia*
M Good *Brisbane, Australia*
P Hodgkin *Melbourne, Australia*
GW Hoffmann *Vancouver, Canada*
AJ Husband *Sydney, Australia*
DC Jackson *Melbourne, Australia*
C James *Perth, Australia*
A Kelso *Brisbane, Australia*
DJ Kemp *Darwin, Australia*
A Lew *Melbourne, Australia*
A Lopez *Adelaide, Australia*
B Loveland *Melbourne, Australia*
B Malissen *Marseille, France*
J McCluskey *Adelaide, Australia*
HC O'Neill *Canberra, Australia*
P Outteridge *Brisbane, Australia*
MS Sandrin *Melbourne, Australia*
R Scollay *Palo Alto, USA*
WA Sewell *Sydney, Australia*
J Sprent *La Jolla, USA*
WR Thomas *Perth, Australia*
P Waring *Canberra, Australia*
HS Warren *Canberra, Australia*
JD Watson *Auckland, New Zealand*
P Young *Brisbane, Australia*

---

Aims and Scope: *Immunology and Cell Biology* is the official journal of the Australasian Society for Immunology. This leading regional journal has established an international reputation, built on more than 75 years of innovative publishing, and reflected in its current Impact Factor of 2.665. The Journal publishes peer-reviewed full papers and brief communications describing original research, methods and concepts in the broad fields of immunology and cell biology, and strongly encourages the submission of 'theoretical' articles to challenge and provoke discussion in the international scientific community.

Abstracting and Indexing Services: The Journal is indexed by *ADONIS, AIDS Information, BIOSIS Database, CAB Abstracts, Cambridge Scientific Abstracts, Cancer Therapy of the Upper Gastrointestinal Tract, CancerLIT, Chemical Abstracts Service, Current Awareness in Biological Sciences/Elsevier BIOBASE, Current Contents/Life Sciences, EMBASE/Excerpta Medica, Index Medicus/MEDLINE, Journals@Ovid, Reference Update, Research Alert, Science Citation Index, SciSearch, UnCover* and *University Microfilms.*

Editorial Correspondence: Papers for publication should be submitted to the Editor-in-Chief, Professor CR Parish, or one of the two Editors marked in bold above. All other editorial correspondence should be addressed to: Professor CR Parish, Editor-in-Chief, *Immunology and Cell Biology*, Division of Immunology and Genetics, The John Curtin School of Medical Research, Australian National University, PO Box 334, Canberra, ACT 2601, Australia (tel: (+61) 2 6125 2604; fax: (+61) 2 6125 2595).

Disclaimer: The Publisher, Society and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, Society and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, Society and Editors of the products advertised.

This journal is printed on acid-free paper.

VOLUME 81, ISSUE 1, FEBRUARY 2003

Research Articles

Paucity of functional CTL epitopes in the E7 oncoprotein of cervical cancer associated human papillomavirus type 16
V Khammanivong, X Song Liu, W Jun Liu, SJ Rodda, GR Leggatt, RW Tindle, IH Frazer and GJP Fernando 1

IL-4 responsive CD4· T cells specific for myelin basic protein: IL-2 confers a prolonged postactivation refractory phase
MD Mannie, DJ Fraser and TJ McConnell 8

Special Feature – vaccines and vaccination in the 21st century

Gates, GAVI, the glorious global funds and more: All you ever wanted to know
GJV Nossal 20

Mucosal immunity: Some historical perspective on host-pathogen interactions and implications for mucosal vaccines
PL Ogra 23

Improving vaccines against tuberculosis
WJ Britton and U Palendira 34

Bacterial otitis media: Current vaccine development strategies
AW Cripps and J Kyd 46

Immune responses to hepatitis B surface antigen following epidermal powder immunization
JE Osorio, CL Zuleger, M Burger, Q Chu, LG Payne and D Chen 52

Cytosine guanine dinucleotide-containing oligodeoxynucleotides allows lower dose of antigen against hepatitis B surface antigen in BALB/c mice
R Weeratna, L Comanita and HL Davis 59

Immune responses in hepatitis C virus infection: The role of dendritic cells
NL Fowler, J Torresi, DC Jackson, LE Brown and EJ Gowans 63

Maturation of dendritic cells with lipopeptides that represent vaccine candidates for hepatitis C virus
BY Chua, A Healy, PU Cameron, O Stock, M Rizkalla, W Zeng, J Torresi, LE Brown, NL Fowler, EJ Gowans and DC Jackson 67

Generation of CTL responses using Kunjin replicon RNA
SM Ward, RW Tindale, AA Khromykh and EJ Gowans 73

Aspects of cancer immunotherapy
IFC McKenzie, V Apostolopoulos, M Plebanski, GA Pietersz and BE Loveland 79

Hypoallergenic derivatives of major grass pollen allergens for allergy vaccination
MB Singh and PL Bhalla 86

Book Review 92

VOLUME 81, ISSUE 2, APRIL 2003

Review Articles

The potential of antibody-based immunosuppressive agents for corneal transplantation
MA Thiel, DJ Coster and KA Williams 93

Cancer immunotherapy: The past, the present and the future
CR Parish 106

Research Articles

CC chemokine receptor 1 enhances susceptibility to *Leishmania major* during early phase of infection
M Rodriguez-Sosa, LE Rosas, LI Terrazas, B Lu, C Gerard and AR Satoskar 114

A DNA-priming protein-boosting regimen significantly improves type 1 immune response but not protective immunity to *Trypanosoma cruzi* infection in a highly susceptible mouse strain
JRC Vasconcelos, SB Boscardin, MI Hiyane, SS Kinoshita, AE Fujimura and MM Rodrigues 121

Macrophages of patients with X-linked thrombocytopenia display an attenuated Wiskott-Aldrich syndrome phenotype
S Linder, U Wintergerst, C Bender-Götze, K Schwarz, U Pannicke and M Aepfelbacher 130

Macrophage migration inhibitory factor exhibits a pronounced circadian rhythm relevant to its role as a glucocorticoid counter-regulator
N Petrovsky, L Socha, D Silva, AB Grossman, C Metz and R Bucala 137

Dynamics of dendritic cell development from precursors maintained in stroma-dependent long-term cultures
HL Wilson and HC O'Neill 144

Theoretical Article

Immunocontraception for population control: Will resistance evolve?
A Magiafoglou, M Schiffer, AA Hoffmann and SW McKechnie 152

Book Review 160

Abstracts

Abstracts from the 21st Annual Scientific Meeting of the Transplantation Society of Australia and New Zealand A1

VOLUME 81, ISSUE 3, JUNE 2003

Review Articles

Isolation of antigen-specific B cells
AP Kodituwakku, C Jessup, H Zola and DM Roberton 163

Ikaros, Aiolos and Helios: Transcription regulators and lymphoid malignancies
A Rebollo and C Schmitt 171

Research Articles

Immunity in the absence of CD28 and CD137 (4-1BB) molecules
DS Vinay, GO Wolisi, K-Y Yu, BK Choi and BS Kwon 176

A prolonged immune response to antigen delivered in poly (ε-caprolactone) microparticles
L Slobbe, N Medlicott, E Lockhart, N Davies, I Tucker, M Razzak and G Buchan 185

FcγRIIA polymorphisms in *Streptococcus pneumoniae* infection
FF Yuan, M Wong, N Pererva, J Keating, AR Davis, JA Bryant and JS Sullivan 192

Special Features: Immune Evasion by Flaviviruses

Evasion of innate and adaptive immunity by flaviviruses
MS Diamond 196

Interaction of flaviviruses with cells of the vertebrate host and decoy of the immune response
NJC King and AM Kesson 207

MHC class I up-regulation by flaviviruses: Immune interaction with unknown advantage to host or pathogen
M Lobigs, A Müllbacher and M Regner 217

Is flavivirus resistance interferon type I-independent?
N Urosevic 224

Infection of mouse neurones by West Nile virus is modulated by the interferon-inducible 2′-5′ oligoadenylate synthetase 1b protein
M Lucas, T Mashimo, M-P Frenkiel, D Simon-Chazottes, X Montagutelli, P-E Ceccaldi, J-L Guénet and P Desprès 230

Book Reviews 237

VOLUME 81, ISSUE 4, AUGUST 2003

Review Articles

Murine dendritic cell development: Difficulties associated with subset analysis
HL Wilson and HC O'Neill 239

Tryptophan and the immune response
JR Moffett and MAA Namboodiri 247

Research Articles

Cytotoxic T cells with reciprocal antigenic peptide presentation function are not generally resistant to mutual lysis
MS Staege, K Gisch and AB Reske-Kunz 266

mRNA of MUC2 is stimulated by IL-4, IL-13 or TNF-α through a mitogen-activated protein kinase pathway in human colon cancer cells
J Iwashita, Y Sato, H Sugaya, N Takahashi, H Sasaki and T Abe 275

Sustained linked stimulation via CD3 and CD4 is required for the IL-4-independent development of IL-4 synthesizing CD4+ T cells
T Komata, WW Cruikshank and A Kelso 283

Alveolar macrophages from subjects with chronic obstructive pulmonary disease are deficient in their ability to phagocytose apoptotic airway epithelial cells
S Hodge, G Hodge, R Scicchitano, PN Reynolds and M Holmes 289

Knockout B lymphoma cell lines as biochemical tools to explore multiple signalling pathways
MF Veale, WM Dietrich and LM Corcoran 297

Optimization of an ovine antibody-secreting cell assay for detection of antigen-specific immunoglobulin production in peripheral blood leukocytes
BJ Sedgmen, SA Lofthouse and ENT Meeusen 305

A novel CD44 antibody identifies an epitope that is aberrantly expressed on acute lymphoblastic leukaemia cells
LJ Bendall, A James, A Zannettino, PJ Simmons, DJ Gottlieb and KF Bradstock 311

Mucosal vascular addressin cell adhesion molecule-1 is expressed outside the endothelial lineage on fibroblasts and melanoma cells
E Leung, RK Kanwar, JR Kanwar and GW Krissansen 320

Theoretical Article

Why do B cells produce CD40 ligand?
M Wykes 328

Book Reviews 332

VOLUME 81, ISSUE 5, OCTOBER 2003

Research Articles

Identification of mature plasma cells in early rat yolk sac. A possible origin from the endodermal cell layer: Immunohistochemistry and immunoelectron microscopic study
N El-Nefiawy, K Abdel-Hakim, N Kanayama, N Suganuma and T Terao 335

Expression of an active p110 catalytic subunit of phosphatidylinositol 3-kinase alters the proliferative capacity of interleukin-2 receptor signals
S Gala, S Donald Schibeci, A Marreiros, V Calvo, I Merida, and P Williamson 343

Special Features: Autoimmune Induced Immunopathology

Past, present and future drug treatment for rheumatoid arthritis and systemic lupus erythematosus
PL Mottram 350

Molecular targets in immune-mediated diseases: the case of tumour necrosis factor and rheumatoid arthritis
IK Campbell, LJ Roberts and IP Wicks 354

Is macrophage migration inhibitory factor a therapeutic target in systemic lupus erythematosus?
AY Hoi, EF Morand and M Leech 367

The role of FcγRIIa as an inflammatory mediator in rheumatoid arthritis and systemic lupus erythematosus
C Tan Sardjono, PL Mottram and PM Hogarth 374

Fcγ receptors in the initiation and progression of systemic lupus erythematosus
E Reefman, HM Dijstelbloem, PC Limburg, CGM Kallenberg and M Bijl 382

Alterations in leucocyte trafficking in Lupus-prone mice – an examination of the MRL/fas^{lpr} mouse
MJ Hickey 390

Differential roles of VLA-4(CD49d/CD29) and LFA-1(CD11a/CD18) integrins and E- and P-selectin during developing and established active or adoptively transferred adjuvant arthritis in the rat
AC Issekutz, S Nakazato and TB Issekutz 397

Antinuclear testing in a regional immunopathology laboratory
PJ Roberts-Thomson, T Nikoloutsopoulos, S Cox, JG Walker, and TP Gordon 409

Corrigendum 413

VOLUME 81, ISSUE 6, DECEMBER 2003

Review Articles

Depletion of cellular cholesterol interferes with intracellular trafficking of liposome-encapsulated ovalbumin
M Rao, KK Peachman, CR Alving and SW Rothwell 415

IL-4 from Th2-type cells suppresses induction of delayed-type hypersensitivity elicited shortly after immunization
JF Jacysyn, IA Abrahamsohn and MS Macedo 424

Listeria species escape from the phagosomes of interleukin-4-deactivated human macrophages independent of listeriolysin
K Neumann, E Eppler, L Filgueira, P Groscurth, E Gasal, A Schaffner, G Schoedon and M Schneemann 431

Fibroblast growth factor receptor-1 interacts with the T-cell receptor signalling pathway
VM Byrd, DM Kilkenny, MM Dikov, MB Reich, JV Rocheleau, WJ Armistead, JW Thomas and GG Miller 440

Research Articles

Activated macrophages require T cells for xenograft rejection under the kidney capsule
Y Zhan, JL Brady, W Irawaty, HE Thomas, TW Kay and AM Lew 451

Enhancing CTL responses to melanoma cell vaccines *in vivo*: synergistic increases obtained using IFNγ primed and IFNβ treated B7-1· B16-F10 melanoma cells
S Dezfouli, I Hatzinisiriou and SJ Ralph 459

The inducibility of TNF-α production is different in the granulocytic and monocytic differentiated forms of wild type and CGD-mutant PLB-985 cells
Z Selmeczy, J Szelényi, K Német and ES Vizi 472

Apoptosis of CD4+ and CD8+ T cells during experimental infection with *Mycobacterium avium* is controlled by Fas/FasL and Bcl-2-sensitive pathways, respectively
J Zhong, B Gilbertson and C Cheers 480

Theoretical Article

Naive T cells are maintained by thymic output in early ages but by proliferation without phenotypic change after age twenty
JM Murray, GR Kaufmann, PD Hodgkin, SR Lewin, AD Kelleher, MP Davenport and JJ Zaunders 487

Book Reviews 496
